

Googale

Preparing Today's Child for Tomorrow

'Googale' is an innovative program utilising computer tools to enhance the education and development of young children, whose reading skills are still developing. These tools prepare young children for success in an ever-changing world of search engines, emails and social networking. 'Googale' equips children with age-appropriate digital tools that are compatible with their environment and level of development to help them realise their full potential.

'Googale' is a secure internet service that enables its subscribers to explore in an educational and safe environment. The tools provided by 'Googale' can be incorporated into the daily learning process in the early years of school (ages 4-8) and are user friendly for both teachers and students.

Let Me Discover

A search engine designed for young

'Let Me Discover' is a child-friendly search engine customised to extract age-appropriate information such as animals and their way of life, plants, people etc. The information is presented via pictures and symbols in a multi-media format with video and sound, accompanied with text suitable for early readers. 'Let Me Discover' empowers young children with the ability to search for information while enhancing critical thinking skills required to retrieve this information.

How Much, How Many

An electronic spreadsheet for young children

'How Much, How Many' enables children to relate to day-to-day events by collecting and processing data. This easy-to-use spreadsheet promotes intelligent and keen observation by the child of his/her environment.

E-mail Me

Electronic mail for young children

'E-mail Me' is a secure electronic mail programme that enables children to independently communicate with their network of classmates, teachers, and parents through the use of graphics, written and spoken text. This unique programme promotes non-verbal communication while developing written language literacy.

Write For Me

Word processor program for young children

'Write For Me' enables children to experiment with writing and printing messages, invitations, greeting cards, posters, labels and short stories, etc.
